

Medium-term (FY2024-2026) RC Targets, RC activity results (FY2025) and progress

◎satisfactory △insufficient ■in progress

	Medium-term RC Targets (FY2024-2026)	FY2025 Results	Progress
 Occupational Health and Safety	Zero lost time work accidents in JSP Group (Japan)	Lost time work accidents : 5 cases Total work accidents : 25 cases	△
 Process Safety and Disaster Prevention	Zero ignition trouble caused by static electricity	Ignition troubles caused by static electricity : 0 cases All ignition troubles and fires : 1 cases	△
 Environmental Preservation	Improve energy consumption by 1% or more on average over 5 years (Target: 99.0% or less)	5-year average change in energy consumption per unit of production : 99.3 %	△
	Reduction of CO2 emissions	Base emissions : 63,000 t-CO2	◎
	Reduce landfill waste emissions	Landfill waste emissions : 3 t	◎
	Reduce industrial waste emissions	Industrial waste emissions : 710 t	△
	Appropriate management of PRTR substance emissions	Identify and reduce emissions of PRTR substances at each business unit	■
	Appropriate management of water consumption	Water consumption : 901,000 t	◎
 Product Stewardship	Steady implementation of chemical substance risk assessment	Continue to check chemical substance management measures (implementation systems, SDSs, etc.)	■
	Zero leakage and scattering troubles related to raw materials and products	Continue to check the management system at each business site	■
 Logistics Safety	Maintain and improve environment, safety, and quality in logistics	【Environment】 ・Improve logistics environment ・Continue reducing CO ₂ emissions through improvement of drivers' working conditions and modal shift	■
		【Safety】 ・Reduce backing accidents ・Continue transportation quality meetings and strengthen preventive measures for accidents and troubles	■
		【Quality】 ・Maintain and improve logistics quality ・Truck accidents: 13 cases ・Total logistics accidents: 17 cases	△
 Communication with the Public	Deepen internal understanding of RC (Responsible Care) activities	Dissemination of information on RC activities at JSP Group sites in Japan	■
	Continue dialogue with local governments and communities	Continue dialogue with relevant organizations and local communities	■
RC Activities in general	Promotion of environmental safety activities as JSP Group ・To continue the communication with JSP Group companies ・To promote occupational safety activities and the safety and disaster prevention as JSP Group	・Convening the JSP Group Environmental Safety Promotion Council ・Implementation of safety inspection ・Collection of occupational incident and energy data from global group companies	■
